

# Roller Blinds

FASHIONLINE   
BLIND INDUSTRY PROFESSIONALS

Pull them down for privacy or roll them up and they virtually disappear from your window, leaving you to enjoy the view outside. The simplicity and easy operation of roller blinds has made this style a Australian favourite, while advances in fabric performance and technology has added new versatility.

Now one of the most functional ways of managing heat and light, your roller blinds can provide total sun blackout or allow filtered light into your rooms. It's not only the functionality that makes roller blinds so appealing; it's a clean, uncluttered look at your windows that makes its own style statement.

Roller Blinds keep your home looking open and inviting. Choose a neutral colour to provide calm serenity, or use your windows as a giant canvas and complete your décor using the Fashionline palette of colours and textures.

Beautiful blinds  
that give you total  
privacy or disappear  
from your windows  
so you can enjoy  
the view outside

#### **Energy efficiency**

Roller Blinds can help to drastically reduce your energy consumption.

Over 30% of unwanted heat loss in winter and heat gain in summer, are through windows. By reducing that heat transfer, you'll reduce your power bills.

Fashionline helps you create a safe and comfortable environment where glare and temperature can be controlled.

### Privacy and Wearability

Different rooms have different privacy issues, which is especially true in bathrooms, bedrooms and children's rooms. Roller blinds have the versatility to perform anywhere.

Bathroom blinds can be treated to resist moulds and children's blinds can be protected to resist the dirt and stains that little fingers often leave behind. Of course you can save finger marks and stains by having your roller blinds motorised and operated using remote control, switch or timer controls.

Fashionline have a huge range of blackout, light filtering and sunscreen fabrics to choose from. You can relax knowing you haven't just been guided by fashion but by practicality and that your beautiful window solution will be a lasting one.

Your local Fashionline dealer provides elegant and distinctive window furnishing concepts by combining the resources of Australia's largest independent blind manufacturing co-operatives.

Fashionline is the brand of an Australia-wide association of blind manufacturers who have created a range of timeless window furnishing solutions with the latest designs, colours and technology at affordable prices.
