

Vertical Blinds

FASHIONLINE 
BLIND INDUSTRY PROFESSIONALS

The sleek design of Vertical Blinds is a fabulous fashion statement and has a built in practicality that makes them one of the most adaptable window treatments on the market.

If your room needs light and heat protection, if you'd rather not look out the window, or if your windows are an odd shape or are in a difficult position, vertical blinds are your ideal solution.

Clever blades of fabric that tilt to reveal or obscure the outside world regulate the light coming into your home and also the degree of privacy. The blades draw like a curtain and stack neatly to the right, left or centre to set the mood the way you want it. Verticals give you amazing versatility no matter your preference.

Simple, flexible
and fashionable.

Achieve effortless elegance with your choice of colors and textures from the huge range of fabrics available. Choose from solid or translucent blades to either block or filter the light coming into the room.

Let Fashionline Vertical Blinds take your windows in a whole new direction. Fashionline has developed a superior tracking system that ensures blades sit evenly in place and draw smoothly. Easy to clean and operate, simple easy-to-use fingertip controls rotate the blades through 180 degrees, while precision engineering allows for minimal light leakage between blades.

Perfect for Australian conditions

Australians love the summer sun, but we don't like the damage it does to our furnishings by fading carpets and upholstery. You need to protect your home from harsh sunlight and vertical blinds give you that versatility. Block the light and heat to save your décor and save on energy bills too.

Did you know that over 30% of unwanted heat loss in winter and heat gain in summer goes through windows? That's why it's important to get efficient window coverings that can provide substantial savings on heating and cooling costs.

Your local Fashionline dealer provides elegant and distinctive window furnishing concepts by combining the resources of Australia's largest independent blind manufacturing co-operatives.

Fashionline is the brand of an Australia-wide association of blind manufacturers who have created a range of timeless window furnishing solutions with the latest designs, colours and technology at affordable prices.
